IEC 61936 1 2010 standard no

July 1st, 2018 - IEC 61936 1 2010 provides common rules for the design  
and the erection of electrical power installations in systems with  
nominal voltages above 1 kV a c and nominal frequency up to and including

60 Hz so as to provide safety and proper functioning for the use intended  
For the purpose of interpreting this standard an electrical power  
installation is considered to be one of the following
