'taming the anarchy groundwater governance in south asia

May 24th, 2020 - taming the anarchy groundwater governance in south asia answers these questions by exploring the challenges involved in managing south asia s anarchic irrigation economy and warns that though it has often been beneficial in cases of droughts and famines it could turn into a human and environmental disaster soon in this context

the unique dynamics of south asia s groundwater boom is understood as a phenomenon in itself rather than as part of the global network of groundwater irrigation'
