'*radiosurgery infogalactic*
the planetary knowledge core

November 5th, 2017 -

radiosurgery is surgery using
radiation that is the
destruction of precisely
selected areas of tissue
using ionizing radiation
rather than excision with a
blade like other forms of
radiation therapy it is
usually used to treat cancer
radiosurgery was originally
defined by the swedish
neurosurgeon lars leksell as
a single high dose fraction
of radiation stereotactically
directed to an''**introduction**
